

BENEFITS OF PANCHAKARMA

As Dr Deepak Chopra describes, the additional benefits of undertaking a Panchakarma detox program are diverse and many.

Panchakarma detox program:

- Improves the capabilities of the mind
- Gives mental clarity and awareness
- Reduces dependency on toxic, unhealthy or addictive substances
- Benefits those suffering from stress, anxiety or mental illnesses
- Helps to slow the ageing process
- Improves skin glow
- Boosts energy levels
- Relaxes the mind

OUR CUSTOMERS ON TRIPADVISOR

"I came into my first experience with Ayurveda – a three-day Panchakarma/total body detox – depleted, drained, barely functioning...a mere shadow of myself. Body processes were subpar, long sustained rampant stress levels abounded and my spark had been extinguished. I emerged from my detox – and subsequent rejuvenation treatments – restored. My personally tailored treatments were profoundly healing on many levels: physically, mentally and emotionally. I feel rejuvenated and deeply nourished. I feel...whole."
